- 10/17- Conferences
- 10/23- Butterfly Pavilion
- 10/25-10/28- Fall Break
(no school)
- 10/31- Halloween Parties
(8:30-10:00)

IN OUR CLASS:

We recently completed a project in Social Studies where students worked in pairs to research and write about a famous Denver Landmark. The focus was how Denver's landmarks have changed over time. The students put their landmark on a map and wrote a paragraph teaching the class! Check out their awesome work on the 3rd grade website under What We Are Learning!

CELEBRATIONS:

Third grade is a year full of new information. Your child has been persevering, working hard, and feeling proud of the hard work they have been putting in!

REMINDERS:

Can you believe it's already October? We have started our life cycle unit in science and are watching our caterpillars turn into butterflies. Soon we are beginning our first PBL (problem based learning)! We will be addressing, learning, and trying to solve the problem of disappearing pollinators. We will be studying, butterflies, plants, and animal life cycles while emphasizing the disappearance and importance of bees! In math, we continue to learn different and new strategies to become fluent in multiplication and division. In writing, we have been having so much fun learning about figurative language and poetry! Finally, in reading, we have learned the skill and importance of illustrations in a text and currently we're practicing using context clues to learn unknown words!
