

CLASSROOM NEWS

MONTH of: October

IMPORTANT EVENTS:

- 10/16- Conferences
- 10/17- Conferences
- 10/23- Butterfly Pavilion
- 10/25-10/28- Fall Break
(no school)
- 10/31- Halloween Parties
(8:30-10:00)

IN OUR CLASS:

In reading we use a resource from the public library called Bookflix! If you have a Jeffco library card, your child can log on at home! Just google the Jeffco Library page, go to Books & More, click Kids & Families, click Bookflix, type in your library card number and have access to hundreds of books for your student to watch!

CELEBRATIONS:

We are **ROCKING** multiplication and division and caterpillars are in their chrysalis!

REMINDERS:

Can you believe it's already October? We have started our lifecycle unit in science and are watching our caterpillars turn into butterflies. Soon we are beginning our first PBL (problem based learning)! We will be addressing, learning, and trying to solve the problem of disappearing pollinators. We will be studying, butterflies, plants, and animal life cycles while emphasizing the disappearance and importance of bees! In math, we continue to learn different and new strategies to become fluent in multiplication and division. In writing, we have been having so much fun learning about figurative language and poetry! Finally, in reading, we have learned the skill and importance of illustrations in a text and currently we're practicing using context clues to learn unknown words!
